

BETTER TOGETHER

MDR

EDR

THE MORE **HOLISTIC** SECURITY APPROACH.

OPTIMIZED FOR HEALTHCARE

Quadrant and SentinelOne partner to provide healthcare customers with complete visibility and managed response across their entire attack surface, to include endpoint and network activity.

Healthcare providers are responsible for precious resources, while also maintaining sensitive patient records, making them a prime target for malicious threat actors and ransomware attempts.

By combining elite endpoint detection with 24/7 monitoring and response, we give healthcare providers peace of mind to worry less about data security and more about the best patient care.

PARTNERSHIP FEATURES

- ✓ 24/7 Endpoint Monitoring & Response
- ✓ Mature Healthcare Playbooks
- ✓ One-Click Ransomware Rollback
- ✓ Guided Remediation
- ✓ HIPPA Compliance Assurance

PUTTING THE 'R' IN MDR

Quadrant deploys its Sagan technologies, along with around-the-clock monitoring, alerting, reporting, and overall management, to deliver a high-touch, responsive managed service you can always count on.

- 24/7/365 Monitoring & Validation
- Alert Triage & Prioritization
- Log & Network Analysis
- Custom Reporting & Security Reviews
- On-going Tuning & Management
- Available for On-Prem & Cloud

ABOUT OUR PARTNER: SENTINELONE

SentinelOne delivers autonomous endpoint protection that successfully prevents, detects and responds to attacks across all major vectors. The SentinelOne platform saves time by applying AI to quickly eliminate threats in real time for both on-prem and cloud environments. Learn more at <https://sentinelone.com>
